plejd

GWY-01
INSTALLATION MANUAL

**GATEWAY**
Further information can be found
in the **Plejd** app or at **plejd.com**

1 Connect the product

Gateway connects to your local network via Ethernet and communicates wirelessly with your Plejd products. Place Gateway within clear range of your Plejd system, not in a closed metal cabinet.

The product can also be mounted in place with the accompanying wall bracket. A network cable and a power adapter are supplied in the box. Screws for the wall bracket are not included.

2 Download the app and follow the instructions

Download the Plejd app on the App Store or Google Play. Open the app and follow the instructions to add Gateway to your Plejd system.

Setup requires an Internet connection on your phone or tablet. With the app you can communicate directly to the unit via Internet and Bluetooth®.

Power adapter (supplied*)
100–230 V ~50/60 Hz 0.2 A
Output voltage: +5V DC 1 A
USB-C

*Supplied with DVE Switching Adapter, model no.
DSA-6PFG-05 FEU. Use only adapter listed.

Power consumption
0.6 W

External operating temperature
0 to +35 °C

Dimensions
70x70x20 mm

LAN connection
Ethernet/RJ45

Radio
2.4 GHz mesh
Bluetooth®

Radio range
Up to 10 m indoors.

The Plejd mesh technology extends the range by
allowing the units to communicate with each other.
