## DATASHEET - B3.1/3-PKZ0

Three-phase busbar link, Protected against accidental contact, shortcircuit proof, Ue = 690 V, Iu = 63 A, Circuit-breaker: 3, Unit width 45 + 9 mm, Type of electric connection: Fork

| Part no.          | B3.1/3-PKZ0 |
|-------------------|-------------|
| Catalog No.       | 044946      |
| Alternate Catalog | XTPAXCLKB3  |
| No.               |             |
| EL-Nummer         | 4357201     |
| (Norway)          |             |

## **Delivery program**

| Product range   |      | Accessories  |
|-----------------|------|--|
| Accessories     |      | Three-phase busbar link  |
|                 |      | For parallel power feed to several motor-protective circuit-breakers on terminals 1, 3, 5<br>Protected against accidental contact, short-circuit proof, $U_e = 690$ V, $I_u = 63$ A Can be extended by rotating by installation<br>For PKZMO or PKE attached on the right with an auxiliary contact or trip indicating signal<br>When mounted on the same DIN rail, PKE12/32 and PKZMO cannot both be connected to a three-phase commoning link. |
| For use with    |      | PKZ0, PKE12, PKE32   |
| Circuit-breaker | Numb | er 3   |
| Length          | mm   | 153  |
| Unit width      | mm   | 45 + 9   |

# Technical data

#### Main conducting paths

| Rated impulse withstand voltage       | U <sub>imp</sub> | V AC | 6000  |
|---------------------------------------|------------------|------|-------|
| Overvoltage category/pollution degree |                  |      | 111/3 |
| Rated operational voltage             | U <sub>e</sub>   | V AC | 690   |
| Rated uninterrupted current           | lu               | А    | 63    |

## **Design verification as per IEC/EN 61439**

| Technical data for design verification  |                   |    |  |
|---|-------------------|----|--|
| Rated operational current for specified heat dissipation  | In                | А  | 63   |
| Heat dissipation per pole, current-dependent  | P <sub>vid</sub>  | W  | 1.7  |
| Equipment heat dissipation, current-dependent   | P <sub>vid</sub>  | W  | 5.1  |
| Static heat dissipation, non-current-dependent  | P <sub>vs</sub>   | W  | 0  |
| Heat dissipation capacity   | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.  |                   | °C | -25  |
| Operating ambient temperature max.  |                   | °C | 55   |
| IEC/EN 61439 design verification  |                   |    |  |
| 10.2 Strength of materials and parts  |                   |    |  |
| 10.2.2 Corrosion resistance   |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.1 Verification of thermal stability of enclosures  |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat  |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat<br>and fire due to internal electric effects |                   |    | Meets the product standard's requirements.                         |
| 10.2.4 Resistance to ultra-violet (UV) radiation  |                   |    | Meets the product standard's requirements.                         |
| 10.2.5 Lifting  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.6 Mechanical impact  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.7 Inscriptions   |                   |    | Meets the product standard's requirements.                         |
| 10.3 Degree of protection of ASSEMBLIES   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.4 Clearances and creepage distances  |                   |    | Meets the product standard's requirements.                         |
| 10.5 Protection against electric shock  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.6 Incorporation of switching devices and components  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |

| 10.7 Internal electrical circuits and connections        | Is the panel builder's responsibility.   |
|--|--|
| 10.8 Connections for external conductors                 | Is the panel builder's responsibility.   |
| 10.9 Insulation properties                               |  |
| 10.9.2 Power-frequency electric strength                 | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage                         | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material | Is the panel builder's responsibility.   |
| 10.10 Temperature rise                                   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating                               | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility                      | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function                                | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

#### **Technical data ETIM 8.0**

Low-voltage industrial components (EG000017) / Phase busbar (EC000215)

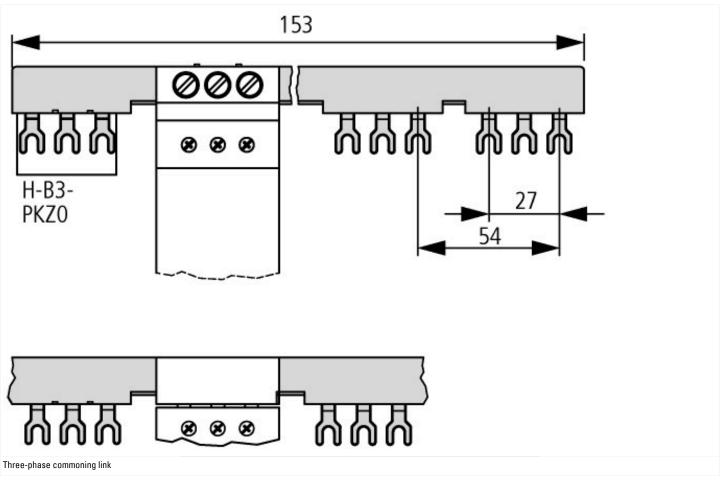

Electric engineering, automation, process control engineering / Low-voltage switch technology / Component for low-voltage switching technology / Phase busbar (ecl@ss10.0.1-27-37-13-06 [ACN992011])

| Number of phases                           |     | 3     |
|--|-----|-------|
| Number of poles                            |     | 3     |
| Suitable for number of devices             |     | 3     |
| Module width                               | mm  | 54    |
| Cross section                              | mm² | 0     |
| Length                                     | mm  | 155   |
| Width in number of modular spacings        |     | 8.5   |
| Rated permanent current lu                 | А   | 63    |
| Type of electric connection                |     | Fork  |
| Insulated                                  |     | Yes   |
| Rated surge voltage                        | kV  | 6     |
| Conditioned rated short-circuit current Iq | kA  | 0     |
| Max. rated operation voltage Ue            | V   | 690   |
| Rated short-time withstand current lcw     | kA  | 0     |
| Suitable for devices with N-conductor      |     | No    |
| Suitable for devices with auxiliary switch |     | No    |
| Colour                                     |     | Black |
|  |     |       |

## **Approvals**

| Product Standards                    | UL 508; CSA-C22.2 No. 14; IEC60947-4-1; CE marking |
|--------------------------------------|--|
| UL File No.                          | E36332   |
| UL Category Control No.              | NLRV   |
| CSA File No.                         | 98494  |
| CSA Class No.                        | 3211-06  |
| North America Certification          | UL listed, CSA certified                           |
| Specially designed for North America | No   |
