

AOCTOW/GU10LED/TW

OCTO WiZ GU10 Tuneable White Smart Lamp

Features

This tuneable white lamp allows you to choose between 64,000 shades of white and a colour temperature between 2700K - 6500K.

With an output of 400lm at 4.9W this product is an ideal smart GU10 alternative providing diverse CCT and output options.

No hub required, connect directly from a phone, tablet or smart device.

The GU10 module uses both Wifi and Bluetooth hybrid technology meaning that the dual protocols offer versatility and reliability, ensuring that if one protocol connection is lost the other will allow normal use

Lifespan 15,000 hours
